ACSP Submitter created ACSP-158:

-----

Summary: [ARIN-20190731-S49] Suggestion Confirmed  
Key: ACSP-158  
URL: <https://jira.arin.net/browse/ACSP-158>  
Project: ACSP Management  
Issue Type: Suggestion  
Reporter: ACSP Submitter  
Assignee: Hollis Kara

Submitter:

First Name: Jordi  
Last Name: Palet Martinez  
Company: The IPv6 Company  
[Email: jordi.palet@theipv6company.com](mailto:jordi.palet@theipv6company.com)  
Phone: 1.703.227.0660  
Ticket Number: ARIN-20190731-S49

Suggestion Details:

Description: ARIN should modify its Registration Services Agreement so that address holders agree to only announce routing for its own address blocks, or those address blocks for which it has obtained permission of the registrant as listed in the Internet Number Registry System.

Value to Community: The additional value to the community would be that ARIN address holders would be far less likely to hijack routes as it would represent a breach of their agreement with ARIN.
