Draft Policy 2013-3

Tiny IPv6 Allocations for ISPs

2013-3 - History

1. Origin: ARIN-prop-185 (12 March 2013)
2. AC Shepherds: David Farmer, Chris Grundemann
3. AC accepted as Draft Policy – 21 March 2013
4. Text and assessment online & in Discussion Guide
https://www.arin.net/policy/proposals/2013_3.html

2013-3 – Summary

- This policy proposal will reduce the minimum allocation size from a /36 to a /40. An ISP which has a /36 or a /40 can have additional allocations without being subject to additional allocation policy (6.5.3) as long as they do not cross the /32 border.

2013-3 – Status at other RIRs

No similar proposals/discussions.

2013-3 – Staff Assessment

New Draft Policy

- Posted recently for discussion.
- Staff/legal assessment to be performed upon request of the AC (when draft is fully developed).
