Billing Management in ARIN Online

- **It is important to keep your Billing POC (BPOC) up to date for several reasons:**
 - The BPOC is the only contact point for sending initial invoices
 - Reminders are sent to the BPOC as well as the Admin, Tech and DMR POC
 - Contact point for ARIN staff should there be questions regarding the account

Billing Management in ARIN Online

- If you have an ARIN Online web account linked to an organization (ORG) as an Admin, Tech, Billing or DMR Point of Contact (POC), you may modify billing contact information within ARIN Online. To access this information:
 - Log into your ARIN Online account
 - Select BILLING INFO from the left-hand menu
 - Click the Org ID from the List that you want to review
 - At the Billing Information Page, if the information is incorrect, click modify from the Manage Billing section on the right-hand menu
 - Proceed to provide the new contact information and submit

ARIN Fee Calculator

- ARIN Online features a fee calculator for ARIN resource holders wishing to view an estimate of annual fees.

BILLING INFO

Estimated Fees

The following line items are your estimated cost for ——— under the new fee structure for the current calendar year. This fee calculator is intended for informational use only and as a self-help tool for your independent use. The fee calculator is provided as an aid for registrants to determine the potential amount of their annual fees. We do not guarantee its applicability or accuracy in regard to your individual circumstances. By using this fee calculator, you acknowledge that ARIN makes no guarantees or representations in reference to actual fees that may be due and that the fee calculator results are only estimates.

ARIN Fee Calculator (cont'd)

- Users linked to at least one ORG with billable resources may view an estimate of their annual ARIN fees by navigating to the Billing Info section, selecting an ORG, and selecting the "fee" button on the right. This table will list that ORG's fees as they apply to their current resource holdings, and list them by category with a total on the bottom row. This table is populated via queries to Navision.
