## 2013-7 – Staff Summary

- The intent of this proposal is to modify several existing sections of NRPM 4 as the author believes that they are becoming increasingly irrelevant as we move closer to IPv4 run-out. Sections to be modified include 4.1.1, 4.1.5, 4.1.7, 4.1.9, 4.2.4.3, and 4.2.4.4.

## 2013-7 – Staff Assessment

- These changes do not appear to alter staff's ability to obtain appropriate justification for resource requests, nor create any potential operational impact.

### **Resource Impact: Minimal (3 months)**

- Updated guidelines and staff training

## 2013-7 – Legal Assessment

- The policy does not create legal concerns.
