Internet Number Resource Transfers Update

John Sweeting, Chief Customer Officer

Overview

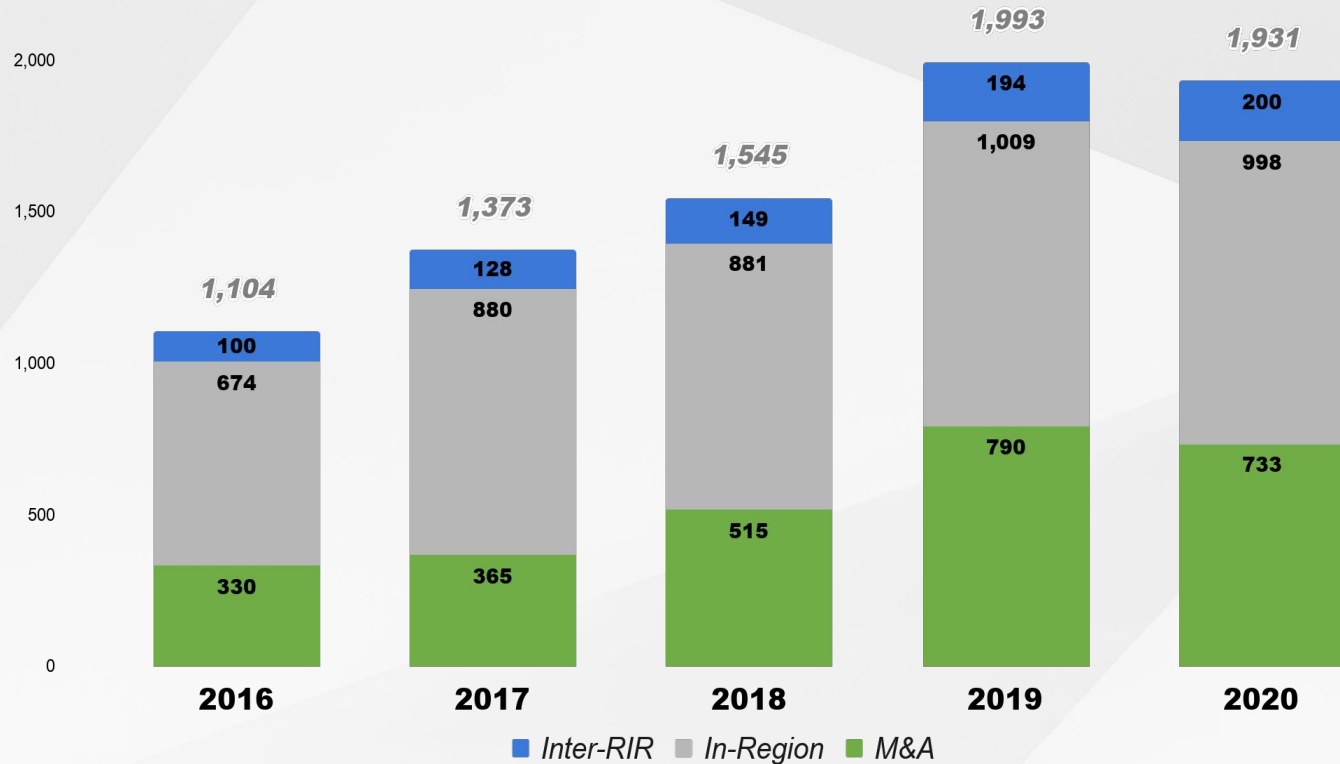

Number of completed transfers

Transfer processing time

Number of IP Addresses transferred

Size of specified transfer address blocks

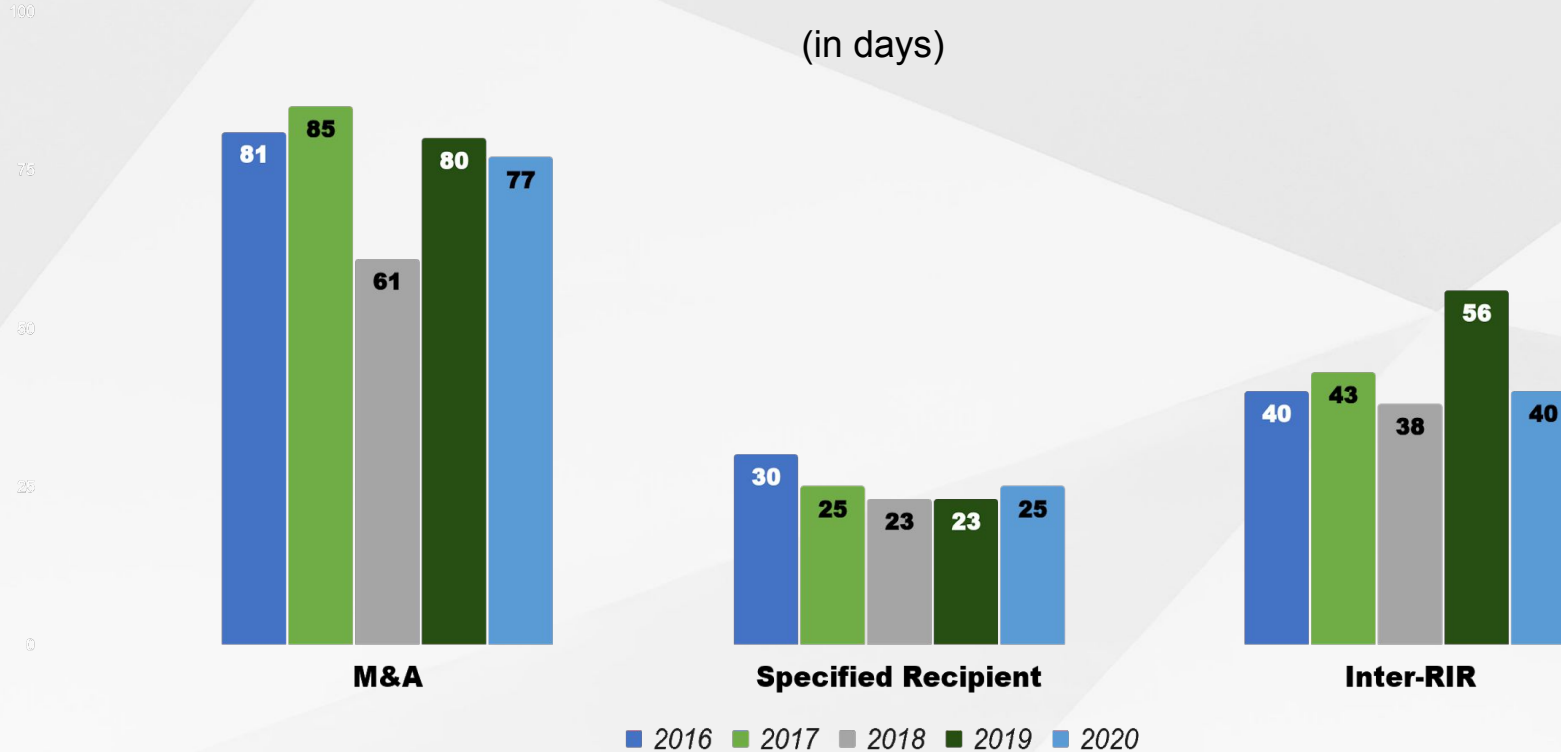

Transfer Volume

Small change from 2019 to 2020 may indicate we're reaching a stable steady state or a result of the pandemic

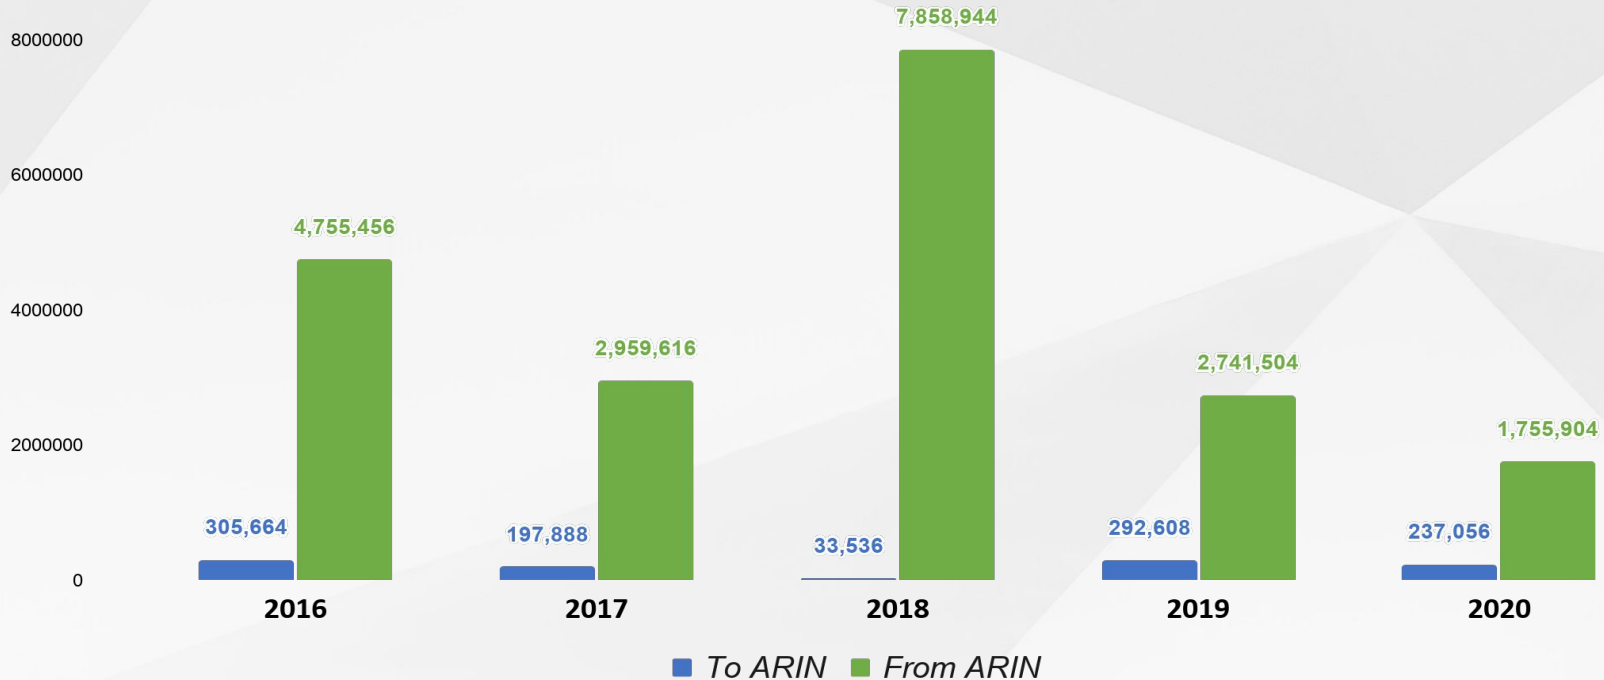

Transfer Processing Time

(in days)

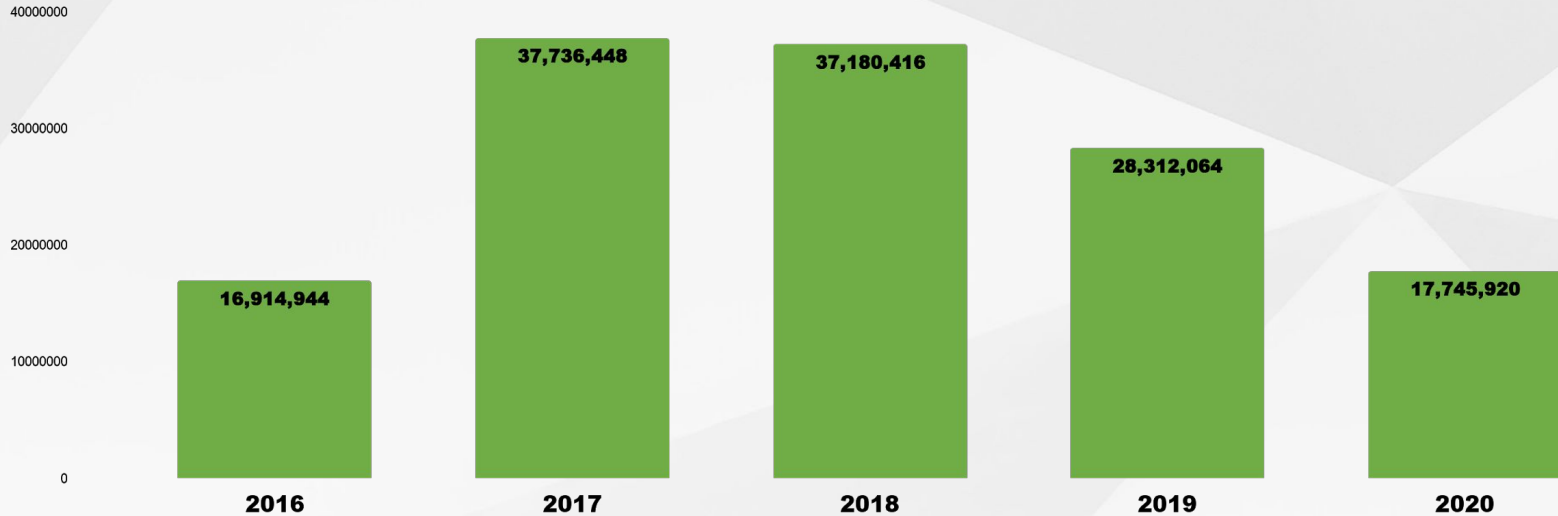

Inter-RIR Transfers - Number of IP Addresses Transferred

Net 5 year change: -19,004,672 IP addresses

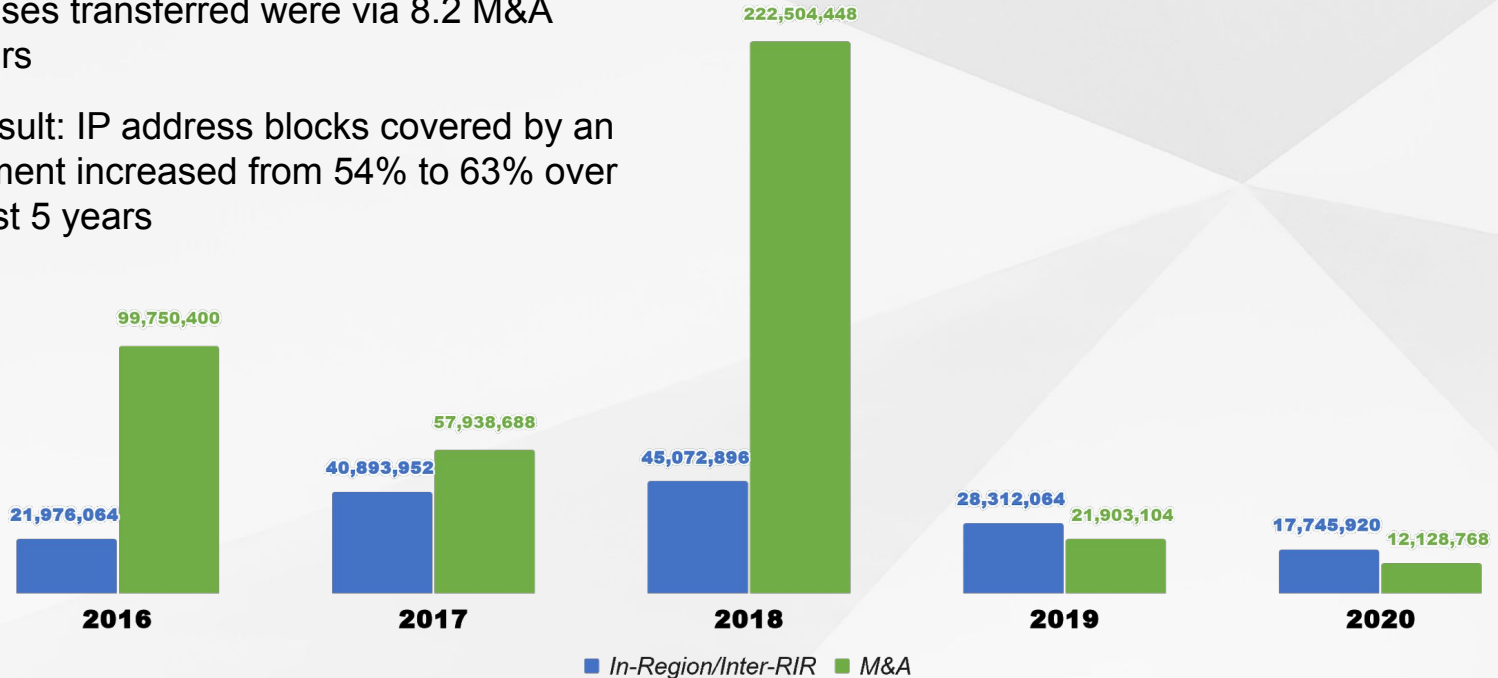

In-Region Transfers - Number of IP Addresses Transferred

5 year total: 154,000,896 IP addresses

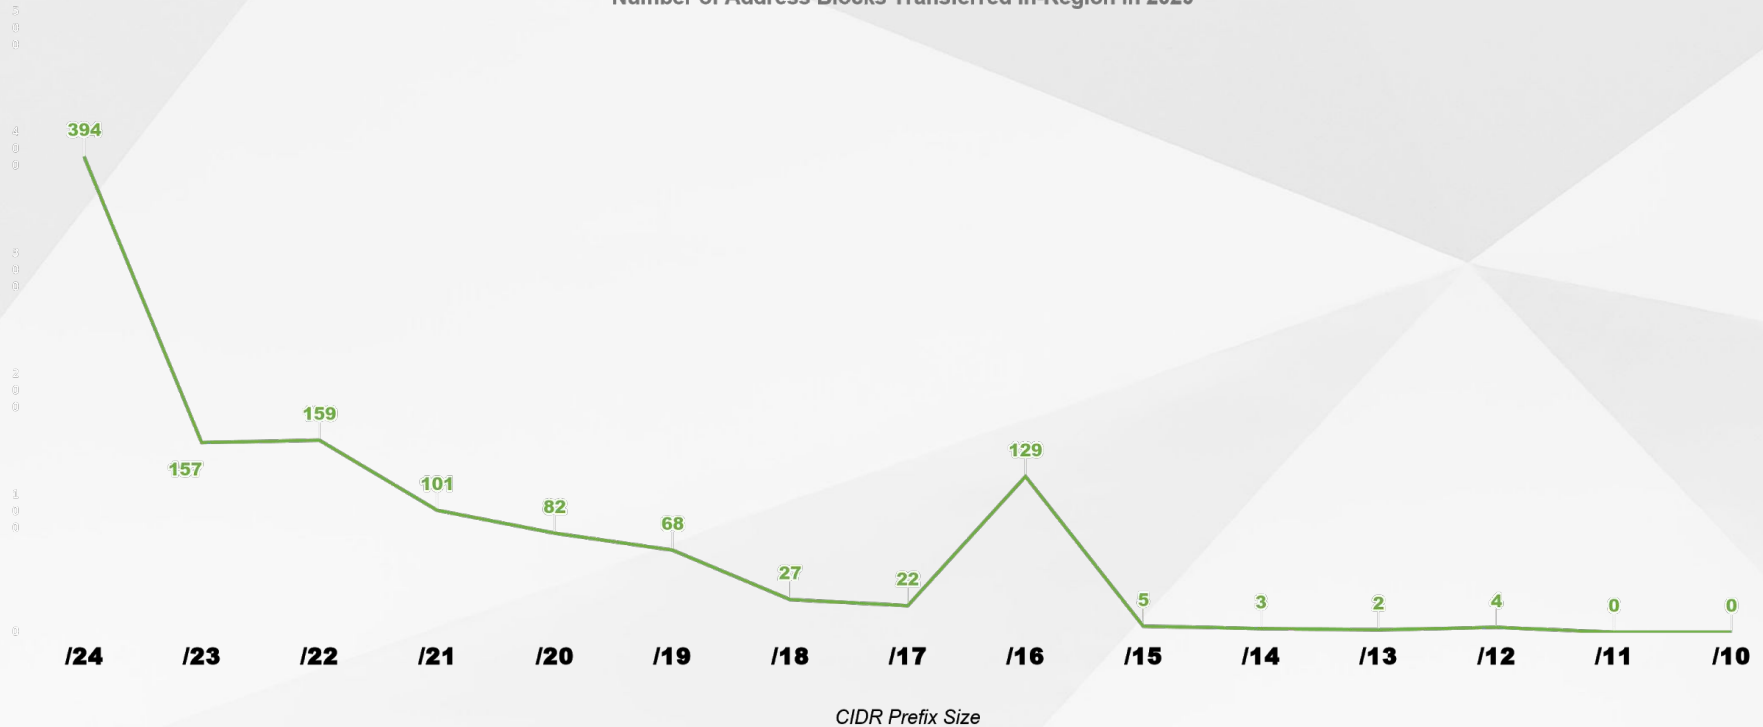

M&A Transfers - Number of IP Addresses Transferred

- 73% of the approximately 488 million IP addresses transferred were via 8.2 M&A transfers
- End result: IP address blocks covered by an agreement increased from 54% to 63% over the past 5 years

Most Specified Transfer Blocks Are Small

Number of Address Blocks Transferred In-Region in 2020

Summary

Number of transfers stabilizing or impacted by pandemic

Transfer processing time stabilizing

Transfer activity increasing (L)RSA coverage

Most specified-transfer blocks are small

Thanks!
