Emerging RIRs

- Observed progress in the establishment of LACNIC and AFRINIC new RIRs.
    - active and regular participation by LACNIC & AFRINIC representatives as ASO observers
    - LACNIC granted conditional approval by ICANN
    - AFRINIC working to finalize internal structure and office location (in close collaboration with RIPE NCC and ARIN)

RFC 2050 Update

- Discussion of RFC 2050 replacement.
  - Global Mailing list for discussion:

    Rfc2050-wg@arin.net
  - Presentation given at ASO GA in Thailand.
  - Policy document develop independent of IETF, but might want to submit as INFO doc later obsolescing RFC 2050.

Global IPv6 Policy

- ## The RIRs are working on a global IPv6 policy
  - Current IPv6 allocations are done under the "bootstrap" rules which allow for any company using IPv6 in production to obtain an allocation
  - Mailing list for discussion <global-v6@lists.apnic.net
  - Good collaboration between RIFs and IETF
  - More discussion to come later

Other Business

- Proposed 2 candidates to ICANN for the IDN committee Ray Plzak and M. Diop.

  M.Diop appointed.
