Policy Proposal 2003–11

PPML Posts	Persons
31	12

Highlights:

a. "I'm happy with the way it works right now where issues are resolved directly with the actual users first, then if that doesn't work the ISP gets involved."

b. 3 month POC validation is too frequent, once a year is enough.

Policy Proposal 2003–11

c.   **The Direct Allocation level must have POC info.**

d.   **Contacting end users is worthless, they are not responsive.**

Policy Proposal 2003–11

e. **When end users records are displayed, make it clearer who the parents are.**

f. **Verification of POC info is good, but it may not scale if all end user reassignments are included.**
