Staff Impact Analysis

- ★ NRPM Section – 10.2 (new - global)
- ★ Present – There is no formal policy
- ★ Change - This is a global policy proposal which would set policy for IPv6 allocations from the IANA to the RIRs
- ★ Departments reported no significant operational impact

Legal Review

- ★ No liability concerns related to ARIN or issues of compliance with law or regulation.

PPML Discussion

★ One post in favor

- ▶ Regarding section 2, why is a new allocation needed before the current allocations are close to used?
- ▶ Regarding section 3.1, how about a 6 month window at the current burn rate as opposed to a fixed 50%?
