# Staff Impact Analysis

- \* NRPM Section – 3.5 (new)
- \* Present - Reassignment information is publicly available
- \* Change - Reassignment information would be private, unless an ISP chooses to make them public
- \* Departments reported no significant operational impact, except for Engineering:
  - ▶ Modifications
    - ▶ database schema to identify private records
    - ▶ templates
    - ▶ registration software
    - ▶ WHOIS and AUP dump tools
  - ▶ Development of reporting tool(s) to provide private records to authorized POCs
  - ▶ Approximately 280-300 hours to implement

# Legal Review

- ★ No liability concerns related to ARIN or issues of compliance with law or regulation.

## PPML Discussion

- ★ Two posts against:
  - ▶ Spammers and abusers need less anonymity not more
  - ▶ Unfair, customers may favor ISPs who protect customer privacy
  - ▶ ISPs may need larger abuse teams when complaints no longer go to the customers first
