Policy Proposal 2007-25

Description

- ARIN staff understands that this proposal would make the following changes to the IPv6 section of the NRPM:
 - ➔ Removes the prefix size from the initial IPv6 allocation criteria,
 - ➔ Moves a modified version of 6.5.3 to a new location (6.5.4.4),
 - ➔ Establishes criteria for direct assignments larger than a /48 (.94 HD-Ratio), and
 - ➔ Makes reserved space (from the /44s) available for other use.

Staff Comments*

1. Change I - the statement be a "known ISP" is still contained in this policy. This term is ambiguous and open to interpretation and should be defined. It should be noted that there is no authoritative definition for either ISP or LIR.
2. Change J - The section number, 6.5.3, would be retired instead of renumbering all the subsequent sections.
3. NRPM Change – Modifications to Sections 6.5.1.1.d, 6.5.3, 6.5.8.2, and 6.5.8.3.
